KS2416

Limited warranty.

MODEL	UPC 052837	UNITS
* KS2416*	022168	16-inch x 24-inch, steel

\* While supplies last

## WOOD RULERS

Keson wood rulers have long been an essential tool for carpenters, mason's, plumbers and all types of tradespeople. They extend to over 6 feet (2 meters). They enable you to draw straight lines up to these lengths without the use of a chalk line or mason's line. Folds up to 9-1/2 inches.

### FEATURES

- Steel springs have a precision lock action for extra strength when extended.
- Cleanly machined edges allow the rule to be snapped together easily and hold it stiff while measuring.
- Weather resistant markings have tough, clear protective coating.

Limited warranty.
